Employment

Software Engineer **Magill College Sydney** **Jul 2024 – Present**

Sydney, NSW

- Developed and maintained the college's WordPress site, optimized performance using caching and CDN, and ensured daily data backups.
- Designed responsive email templates and built an email system using cloud services.
- Created SharePoint-based e-learning platforms and provided IT support, including device setup and cybersecurity implementation.

Software Engineer **FPT Software** **Nov, 2017 – Dec, 2022**

Ho Chi Minh, Viet Nam

- Delivered front-end solutions for major clients like AIA, Cox Automotive, and Singapore Polytechnic across automotive, insurance, and education sectors.
- Customized reusable CMS widgets, developed responsive UI features and backend APIs.
- Collaborated with teams and clients to tackle complex business logic and challenging system integrations.

Software Intern **Western Sydney University** **Feb 2024 – Aug 2024**

Sydney, NSW

- Developed a student internship placement system with secure login and role-based access.
- Built responsive user interfaces using React, HTML, CSS, JavaScript, and server-side apps with Node.js/Express.js.
- Managed data using MySQL database operations with full CRUD functionality.

Software Engineer Associate **Terralogic Inc** **Aug 2017 – Dec 2017**

Ho Chi Minh, Viet Nam

- Received mentorship from senior engineers and actively participated in code reviews and pair programming sessions to improve coding standards and best practices.
